Subject: August 5 Board Meeting Agenda Items 7A and 7B

Dear Joshua Basin Water District Directors and General Manager:

I reside in Stacy Doolittle's District. I am very happy that she does all the work and research that she does, and asks the questions that need to be asked. She does her homework and practices oversight as any leader of an agency like this, with such a huge responsibility for public safety and well-being, should do.

Where are the details for Agenda Item 7A and 7B, please ? For something like this to just appear on the agenda without any information or explanation brings into question what is going on behind closed doors.

We, the rate-payers, expect a full explanation of the reasons and the history behind these agenda items, and request that no actions are taken on August 5th.

Thank you,
Janet Johnston
