Subject: Sewer in Joshua Tree and the censuring of Ms. Doolittle

To JBWD Board Members:

I went to my first JTWB meeting a month ago about because I was concerned about the push to put sewers in Joshua Tree.

The president, Ms. Doolittle, was impressive and diligent with her line of questioning about the sudden need for a sewer system was on point and professional. She questioned whether the county had been transparent because it appeared that plans were already moving along behind the scenes before JDWB was brought into the conversation.

She had submitted questions before the meeting. The person that SBC sent was unable to answer any of her questions (which had not been reviewed before the meeting.)

Now we find out there is sudden and vicious surprise attempt to remove her with no notice to her, no reason for the censure given and with zero attempt to reach out to discuss things first.

This is extremely concerning.
It is necessary to move forward in a transparent and fair manner.

Respectfully
Diane Kuntz
Joshua Tree
