Subject: Complaint regarding Stacy Doolittle

Dear JBWD Board,

I'm writing because I'm very alarmed by the lack of due process, notification and transparency that you have shown toward your board president Stacy Doolittle. I have known Ms. Doolittle for quite a few years and have seen her character, her dedication, her honesty and ethics first hand.

Did the board or the district exhaust methods to address their complaint privately with the president before attempting to publicly humiliate her?

If so, why weren't those details shared in the agenda? Where is the accountability to the public to explain these vague items and insinuated charges?

I support Ms. Doolittle being allowed to continue her presidency until the end of her term or at least until she and the public have time to review the reasoning behind the accusations against her.

Please share any feedback with her directly rather than via a surprise agenda item. The first step should have been to contact her privately.

This attempted public shaming without any due process was a deplorable tactic.

I'm so disappointed in this behavior by the JBWD.

Respectfully,
Jo Ann Bollen
