

Sarah Johnson reminded us to attend board and finance meetings whenever we can. An 11am special budget meeting and workshop is scheduled for May 23. June will also have a special meeting- water capacity fee study (supply chains have been an ongoing issue).

ROUNDTABLE COMMENTS-

Karen Morton suggested we write our blurb for the next newsletter going out to the public. The blurb was written by all members, and was sent to Kathleen with the understanding that she would smooth it out and expand if needed. This is what we wrote:

"Would you like to volunteer to help protect our water?"

"Joshua Basin Water District has a diverse group of concerned and committed ratepayers who voluntarily support and review the decisions of the water district, and protect the interests of the customers as well as protecting and maintaining our local water source, the most important resource we have. We are seeking volunteers now. Your valuable input is needed!"

Sherri Long had a concern about a well south of well 14, and whether it was adjudicated in sovereign land.

NEXT MEETING DATE- July 11, 2023

ADJOURNMENT- Dave Carrillo moved to adjourn the meeting, and Sherri Long seconded. The meeting was adjourned at 6:11pm.

Respectfully submitted,

Sarah Johnson, General Manager
